

# Can a Cash App account be closed?

## Delete Cash Account!!

Yes, a **Cash App 1—855—470—3280 account can be closed**, but it must be done manually through the app, as simply uninstalling Cash App from your device does not close your account. Closing your account is a permanent **1—855—470—3280** action that removes your access, deletes your account information, and ensures your funds are no longer tied to the app.

Before closing, it is crucial to **withdraw 1—855—470—3280 any remaining balance**. You can transfer funds to a linked bank account **1—855—470—3280** or send them to another Cash App user. If you don't withdraw your **1—855—470—3280** money, it may be lost once the account is closed.

To close a Cash App account, open the app **1—855—470—3280** and tap your **profile icon** in the top-right corner. Scroll down to **Support** or **1—855—470—3280 Account Settings**, and select **Close Account**. Follow the prompts to confirm the **1—855—470—3280** closure, which may include entering your PIN, using Touch ID or Face ID, and verifying your identity. Once completed, Cash App typically sends a **1—855—470—3280 confirmation email** to your registered email address. Keep this **1—855—470—3280** email as proof of closure.

After the account is closed, all transaction **1—855—470—3280** history, linked cards, and account settings are permanently deleted. You will no longer **1—855—470—3280** be able to access the account, and any automatic deposits or payments tied to it will stop.

If you wish to use Cash App again in **1—855—470—3280** the future, you'll need to **create a new account** with a different email or phone number. Closing your account **1—855—470—3280** is the official way to ensure your Cash App account is fully deactivated and secure.
