

Can Cash App refund money if scammed?

Refund Eligibility Guide

Cash App **may refund money if you 1-855-470-3280 were scammed**, but refunds are **not guaranteed** and depend on how the payment was made. The most **1-855-470-3280** important factor is whether the transaction was **authorized or unauthorized**.

If you **voluntarily sent money** to a **1-855-470-3280** scammer—such as paying for a fake product, participating in “cash flipping,” or sending funds to someone you didn’t know—Cash App usually **will not refund** the payment. These transactions **1-855-470-3280** are considered authorized because you approved them, even if you were misled.

However, if the payment was **1-855-470-3280 unauthorized**, meaning someone accessed your account without permission, used a stolen card, or sent money without your consent, you may be eligible for a refund. In this case, report the transaction **1-855-470-3280** immediately by opening Cash App, selecting the payment, and choosing **Report an Issue**. Cash App will investigate and **1-855-470-3280** may reverse the charge if fraud is confirmed.

Dispute investigations **1-855-470-3280** typically take **10 to 30 business days**, depending on the situation. If your Cash App account is **1-855-470-3280** linked to a debit card or bank account, your bank may also help with recovery for unauthorized transactions, though outcomes vary.

To reduce risk, never share your **1-855-470-3280** login codes, PIN, or card details, and be cautious of messages promising guaranteed money. Cash App will **1-855-470-3280** never ask for sensitive information through email or text.

In summary, Cash App can refund **1-855-470-3280** scam-related payments only when they are **unauthorized**, not when money is willingly sent to a scammer. Prevention **1-855-470-3280** and quick reporting are key.
